Data's Army After-Hours AI Calls: Homepage Copy

Hero

Never miss another after-hours call.

Your phones stop at 5. Your customers don't. Our AI receptionist answers every call after hours, books the job, takes the message and sends you the lead before your competitor calls back.

Buttons: **Start for my business** | **Become a reseller**

How it works

1. **Forward your after-hours line.** It takes one setting change on your phone system.
2. **Teach it your business.** Upload your price list, FAQs and policies. The AI uses them to answer callers.
3. **Wake up to leads.** Every call, message and booking shows up in your dashboard and inbox.

What callers get

- A friendly, natural voice that answers after-hours calls 24/7 *(claim to verify: ring-to-answer time)*
- Answers about your hours, services, prices and service area
- Appointment requests and callback scheduling
- Urgent calls flagged and sent to you right away

For local businesses (direct)

Built for plumbers, HVAC, dentists, salons, law offices, auto shops and anyone whose phone rings after close.

- Stop sending callers to voicemail. Most people who hit voicemail call the next business on the list.
- Built to cost less than a typical answering service, and it never calls in sick. *(claim to verify against approved pricing)*
- Fast setup. No new phone number and no new hardware.
- See every call in your dashboard: transcript, caller details and next step.

For resellers (white-label)

Sell after-hours AI calls under your own brand.

Agencies, MSPs, phone system dealers and marketing consultants: give your clients an AI receptionist with your logo on it.

- **Your brand everywhere:** logo, colors, domain and client dashboard.
- **Your pricing:** you set what your clients pay and keep the margin.
- **Paid API setup:** we connect phone lines, CRMs and booking tools for you, so you launch fast.
- **Multi-client dashboard:** manage every client account from one login.

- **Partner support:** onboarding guides, sales sheets and a how-to PDF you can rebrand.

FAQ

Does it replace my staff? No. It covers the hours when no one is there.

Can it handle emergencies? Yes. You set which calls are urgent and it alerts you right away.

What does it know? Whatever you upload: price lists, FAQs, policies and service areas.

Can I try it? Yes. Book a 15-minute walkthrough and we'll show you how it works. A live demo line is coming soon.

Final CTA

Your next customer is calling tonight. Let's make sure someone answers.
